

MALKY'S N-SCALE SAR MODELS

DECAL & ETCHED PARTS PRICE LIST

Please Note: With the handing over of some of my designs to Aust-N-Rail and Dogspike Models, the decals and etched parts for those models will now be handled by them.

The Baby Health Car, Weed Poison Train (N), TW water tank, Jumbo 2000/2100, Red Hens 300, 400, Brill 75 original & Milkbar versions and Brill 55 will all now be available from Dogspike Models.

The HCA cement wagon and 8300 brakevan will be available from Aust-N-Rail.

Also, supplies of etched parts are limited, and difficulties with the supplier mean that there may be no replacements in the foreseeable future.
